

Easy Theater Makeup for Ladies with a Ben Nye Kit

1 Start with a clean face.

2 Apply a light foundation overall. Pressed powder, creme, or liquid are all fine.

3 Apply matte blush to apples of cheeks.

4 Define brows. (You may use a powder brow definer if you prefer.)

5 Line eyes with pencil from kit. Upper lid gets most of the liner, just a touch on the bottom.

6 Color lids *if desired* in a natural tone. *No frosted shadow!*

7 Apply mascara *if desired*. Use a dark color. *This is not part of your Ben Nye kit.*

8 Apply lipstick. Use either of the rose tones in your kit to get a natural color that you like.

9 Must do: Apply loose translucent powder when finished to set makeup and keep on-stage shine at a minimum.
